# ABOUT JUNIOR ACHIEVEMENT

## OUR APPROACH

JA's unique approach facilitates volunteers from the community to deliver our proven curriculum while sharing their experiences with students. Embodying the heart of JA, these classroom volunteers transform the key concepts of our lessons into a message that inspires and empowers students to believe in themselves, showing them they can make a difference in the world.

## OUR MISSION

We empower young people to own their economic success. Our volunteer-based K-12 programs foster work-readiness, entrepreneurship, and financial literacy skills by using experiential learning to inspire kids to dream big and reach their full potential.

## OUR PROGRAMS

Junior Achievement programs are intensely focused to bring relevance, authenticity, and application into everyday learning to energize students around their future possibilities. Through partnerships with the business and education communities, we bring academics to life by creating real-world learning experiences. Together, we are transforming education to break down traditional barriers and give every student unparalleled connectivity to the business world, while fueling students' passion for future success.
